The Locked-Out Workmen Resort to Violence

TO KEEP MEN FROM THE MILLS

Six Foremen Driven From Good Positions—Threatening Notices Posted—Affairs at Homestead.

Pittsburg, July 29.—Of the total number of Homestead strikers who have returned to work in the mill—about one hundred and twenty-five—it is said every man has received terrible warnings of dire punishment if he does not quit at once. The men on going home have found sandbags tied to their doors every morning for a week past, and requests and warnings have been hanging on the front door knobs. They have also received letters through the mails containing bloody threats of punishment for deserting the ranks of the strikers. In addition to this, committees of the strikers have approached each man personally and warned him of his peril in remaining at work. These threats have been reported to the Carnegie officials, who have promised protection both inside and outside the works. The strikers have driven six foremen out of the best paying departments in the Homestead mill. The men earned about \$12 a day each. They were told to leave off work under pain of being violently dealt with, but they stood firm. Then when one of them was caught outside he was severely beaten and he and the others were told that they would be murdered if they did not leave. The six foremen left on Monday, and were given by the officials ten days in which to return or their last positions would be forfeited. Two returned, but all who stay at work will be shot or re-employed.

Notice Posted.
The withdrawal of so many troops has given some of the hot-headed men among the workmen an idea that they now have more liberty to forcibly prevent the coming of non-union men to the works. The Society for Prevention of Cruelty to Strangers is again transacting business. This morning the following notice was found inside the works:

Homestead, July 29, 1892.—Notice: All non-union men desiring to leave Carnegie's works without delay will be provided for by the union men of Homestead, but all who stay at work will seek his God. All are being spotted. Beware!

Two employment agents, supposed to be representing the Carnegie Steel company, were mobbed by workmen on South Diamond street last night. They had collected a crowd of mill men, who had been told that the agents were going to force the Carnegie company to employ non-union men. The agents were taken to the Carnegie works and were held there until the morning. They were then released, but the workmen threatened to kill them if they returned.

The Rev. Mrs. Deyo Returns Home.
The Rev. Mrs. Deyo of Scranton, Pa., who came here as a representative of the Universal Peace union to settle the Homestead strike, returned to her home this morning and the strike will go on. The strikers are now more determined than ever. They have been told that the Carnegie officials are trying to bribe them to return to work. They have refused to do so, and they are now more determined than ever to win their case.

Frisk Almost Wore.
A bulletin issued by Surgeon Litchfield says: "Mr. Frick passed a comfortable night and is resting easy." But Mr. Frick is doing more than that; he is now almost well. His wounds are nearly healed and there is no trace of inflammation, nor has there been any infection. He is now able to sit up in bed, and he is practically the same as before the attack.

The gas retorts in the Carnegie city Union mills were started this morning and will be increased in pressure until the mill is ready to resume work. There are about 150 machinists and laborers making repairs to both plants, which are nearly finished, and when Superintendent Dillon gives the word both mills will be up and running. The strikers have been told that the Carnegie company is trying to force them to return to work. They have refused to do so, and they are now more determined than ever to win their case.

O'Mara is Not Released.
Superintendent of Police Roger O'Mara will make no further charges against the strikers. He has been told that the Carnegie company is trying to force them to return to work. They have refused to do so, and they are now more determined than ever to win their case.

May Order Out the Mills.
MILWAUKEE, July 29.—Governor Peck, who is now in the city, says he has sent Adjutant General Fox and Quartermaster General Falk to the scene of the strike, and if there is any further disturbance he will call out the national guard if the officers named deem the situation serious enough to warrant such action.

Carlisle Tries Hard to Score a Point

IN HIS TARIFF EXPOSITION

But He Fails to Weaken the Logic of the Masterful Address of Senator Aldrich.

WASHINGTON, July 29.—Carlisle made a speech in reply to Senator Aldrich's speech on the tariff in the senate today. He said he ought to apologize to the senate for the discussion at this time of a subject which all felt could not be disposed of, but the recent report of the committee on finance had been thoroughly misunderstood and so misrepresented in the public press and otherwise that he had felt it to be the duty of some one on his side of the chamber who assisted in making this investigation to state their views of its conclusions. It was the unanimous opinion of the economists and statisticians that for many years in all the great industrial and commercial countries of the world the prices of commodities had been decreasing and the rate of wages increasing, especially in those occupations on which are required a double degree of skill.

In other words capital had been receiving year by year a smaller percentage upon its total investment, and labor had been receiving a larger percentage. Of course there were very many aggravated exceptions to this rule, but they were mainly attributable to the artificial conditions caused by unequal taxation and interference by the government with the affairs of the people. If all these disturbing influences could be removed the universal rule would be in all civilized countries that the price of commodities would tend to decline in the price of commodities and increased rates of wages would be the necessary result of our improved methods of production and transportation and exchange. This had been going on all over the world except where the government had contracted with itself to the general welfare and enacted laws which interfered with the distribution of products. What ever made it easier for the people to live decently and frugally, whatever made the necessities of life cheap to the masses was doing good to mankind, and he had never been so glad to appreciate the justice of the policy which compelled men to work longer and harder in order to support their families.

OLD SCENES REINACTED

The Strikers Gather in Menacing Knots Again.

HOMESTEAD, July 29.—Tonight the old scenes that were familiar prior to the advent of the national guard are being re-enacted in Homestead. Knots of strikers are gathered in every four corners on the principal streets, discussing the best and safest means of routing the non-union men now in the mill. While much interest is shown in the programs discussed, the leaders caution the men against employment of non-union men for the presence of the national guard. However, the fence around the steel plant would not long separate the union and non-union men. At the company's Homestead office this evening it was announced that forty-two Amalgamated strikers are to be sent to work on the Carnegie works on the 28th of June have applied for and received their old positions. Early this afternoon word was received that thirty-five non-union men were on their way from Indianapolis to Homestead, and that they would be sent to work on the Carnegie works on the 28th of June. A committee was sent with instructions to intercept the men and see all honorable means to prevent them reaching Homestead. A telegram was received tonight stating that the non-unionists had all agreed to return tonight. The report that Hugh Donohoe (alias) had been sent to the mill of Homestead and that he had gone to an eastern resort to recuperate, is denied by Hugh Donohoe, a prominent Knight of Labor.

Abatement to Settle It

Pittsburg, July 29.—The differences between the managers and Amalgamated association wage committee will now doubtless be settled by arbitration. At last Wednesday's conference, D. B. Oliver, representing the manufacturers, made a unanimous proposition to arbitrate the differences under the act of 1888, as yet unratified. The proposition has been referred to all of the local lodges with favorable recommendations by the committee, and it is confidently expected by both sides that this plan will be put into effect at the next conference meeting, to be held a week from next Thursday.

Decreased Supply of Natural Gas

CLEVELAND, July 29.—The Northwestern gas company is putting in an immense pumping plant near Van Buren, a few miles north of Findlay, for the purpose of forcing gas to their customers in Detroit, Toledo, Sandusky and other towns supplied by them. The pressure from the wells has become so low that the gas will no longer deliver itself through long pipe lines, and this step has become necessary in order to keep these places supplied.

Stormy Silver Session

DENVER, July 29.—The silver convention, held under the auspices of the State silver league, concluded its deliberations today in a stormy all day session. The fight was over the motion to endorse the full ticket nominated on the previous day by the people's party convention and a substitute to approve the electoral ticket only. The people's party element was the battle and the convention finally endorsed the popular ticket, both state and electoral.

KILLED IN A FIGHT

Three Men Lose Their Lives in a Riot

IN A BERLIN BEER GARDEN

While Twenty-Two Others Are Injured. The Militia Called Out to Quell It.

BERLIN, July 29.—There is an alarming increase in the number of affrays between civilians and soldiers in Germany, especially in the middle region of the empire. The third affray of the kind within a week is reported. At Giesen, the capital of Ober-Hessen, a famous university town, in which the proportion of well-educated civilians is very large, a dispute between citizens and soldiers in a beer garden led to blows and then to a general melee. Eighty men were fighting for two hours, the civilians struggling desperately to drive the military out of the garden. Although the soldiers used weapons they were getting the worst of the struggle when the police interfered and tried to quiet the combatants. The police were severely used between the civilians and the militia, and two of the policemen received sword thrusts from which they died. A detachment of infantry was ordered to the spot and at length compelled the enraged antagonists to give up the fight, but not before the beer garden was completely wrecked and a number of persons fatally or seriously injured. Eighteen civilians were carried to the hospital, suffering from wounds, and three have since died. Four soldiers were fatally injured. Petitions have been prepared and extensively signed asking for a government inquiry, with a view to putting a stop to such affrays.

GLADSTONE HAS FORTY MAJORITY

The New Parliament Completed by the Return of a Liberal From Orkney.

LONDON, July 29.—The returns from the election in Orkney and Shetland islands, received today, completes the new parliament. The liberals, as was expected, carried the day. Leonard Lyell being re-elected by a vote of 2,617 to 1,674 for W. Younger, liberal unionist. In 1885 Mr. Lyell had a majority of 1,412 over the conservative candidate, and in 1886 Mr. Lyell had a majority of 971 over the liberal unionist candidate. His majority reported today is somewhat less, being 943. Mr. Lyell is a nephew of the late Sir Charles Lyell, the famous geologist. Orkney and Shetland have returned a liberal for sixty years. From 1835 until 1880 there was no contest. The result in Orkney and Shetland leaves Mr. Gladstone with forty majority for a vote of "no confidence" in Lord Salisbury's ministry. This majority includes liberals, labor, anti-Parnellites and Parnellites.

HE CHEATED THE HANGMAN

A Desperate Scoundrel Commits Suicide in Prison at Oregon City.

OREGON CITY, Ore., July 29.—Charles Wilson, who outraged and murdered poor little 12-year-old Mamie Walsh last month, hanged himself in his cell yesterday. His case is extraordinary because of his escape from jail, his recapture and the moral certainty that he would have been hanged had he been caught. Evidence against him was circumstantial, but conclusive. After his first arrest he broke jail and was at large ten days. When captured he fought like a demon, with a razor. His arm was broken but he bit the constable so that he came near dying of blood poisoning. He suffered fearful hardships in the woods before he was caught, and in jail he was twice tempted suicide. He was moved three times to save him from lynching. He came from Mount Pleasant, Ia., and confessed he had murdered five people.

RELIEVE HE WAS MURDERED

Finding of the Body of Frank McCurren With the Skull Crushed.

LOMA, Ohio, July 29.—Thursday morning the mangled remains of Frank McCurren, the proprietor of a brickyard, were found on the railroad track near North Baltimore. At first it was thought the man had been killed by the cars, but a close examination of the body disclosed a wound on the head and the fact that his skull had been crushed. The finding of a coupling pin near by covered with blood confirmed the suspicion of murder, and the authorities are satisfied that the man met foul play. As a result warrants have been issued for a fellow known as Kokomo Jack and for Sam Dancy, a school teacher of New Miller, of this city, on suspicion of complicity in the affair. The last seen of McCurren alive was when he was seen the evening before the tragedy, walking along the railroad track with Dancy. Both Dancy and Jack are missing. Dancy was employed in the oil fields and has been in the North Baltimore district for some time working. Kokomo Jack is well known here. McCurren was murdered for his money, as his brother had given him \$180 a few hours before with which to pay a lumber bill. When the body was found the money was missing. Nothing has been heard from Kokomo Jack. Dancy was seen at Deshler yesterday with about \$50 in his possession.
